Strategic report

In 2017 the company experienced lacklustre market demand conditions from its major customers, nevertheless further volume growth of 1% compared to the previous year was achieved, and therefore set a new record.

Following the previous years of heavy capital expenditures, the company continued to bring its new asset base into commercial use.

Profitability was adversely affected by a foreign currency revaluation loss and an accrual for a bad debt with a customer, and in the latter part of the year an increase in personnel costs as the company prepared for stronger market demand and sales contracts in 2018.

The company's key financial performance indicators during the year were as follows:

	2017	2016	%
	£000	£000	Change
Turnover	196,244	162,750	+21%
Gross profit	10,088	13,248	-24%
Operating profit	2,075	5,587	-63%
Profit after tax	629	2,135	-71%
EBITDA	9,520	10,678	-11%
Adjusted EBITDA*	7,253	10,716	-32%
Shareholders' funds	86,679	82,630	+5%
Net debt/EBITDA	3.0	3.7	-19%

^{*} Adjusted EBITDA excludes the effects of metal hedging and aluminium ingot prices

Turnover increased by 21% as a result of a higher metal price during the year. Sales volumes increased by 1%. The gross profit margin decreased from 8.1% to 5.1%. The operating profit margin also decreased from 3.4% to 1.1%.

The company continued to closely monitor and control working capital (inventory, trade debtors and trade creditors) during 2017, working capital as a percentage of sales decreased from 32.7% to 25% as a result of lower debtors and higher creditors, partly offset by higher inventory.

The level of shareholders' funds increased by 5% during the year due to a reduction in the loss on the change in fair value of cash flow hedges and the increase in retained earnings.

Principal risks and uncertainties

Metal price risks

The company sells finished products and buys aluminium raw materials priced on the London Metal Exchange ("LME"). The company has, together with its parent, developed hedging procedures designed to manage the risk of metal price volatility on the LME.

Foreign exchange risks

The company has a high percentage of sales and purchases in currencies other than GBP. The company has a policy of forward selling or purchasing the known net currency exposures for sales and purchase contracts, so as to protect the business from margin erosion after contract commitments have been agreed.

Interest rate risks

Interest rate swaps are used by the company to adjust interest rate exposures in order to guarantee fixed interest payments where payments are variable, hence reducing exposure to interest rate movements.

Strategic report (continued)

Principal risks and uncertainties (continued)

Credit risk

The company has a credit review mechanism which allows deferred payment terms to certain customers with good historic payment records. In addition, the company seeks to further minimise credit risk by taking out credit insurance policies covering credit risks with customers.

Price risk

The company's exposure to the risk of the two elements of its selling price, metal and conversion, are managed by the use of LME futures for the metal price and forward sales contracts for the conversion price.

Liquidity risk

Long term debt, receivables, inventory and overdraft facilities are used by the company to manage liquidity risk. The company also aims to reduce liquidity risk by managing working capital, investments and operations within strict target levels.

Cash flow risk

The company manages cash flow risk, where significant, by the use of derivatives as explained above.

Future developments

The outlook for the company is positive, with significant further growth being experienced in 2018, mainly driven by improved lithographic volumes.

The wider economic and geo-political outlook however is uncertain, and the company is exposed to the effects of trade agreements following the UK's vote to leave the EU, and to tariffs imposed by the USA on imports of aluminium into the USA. Both of these issues could affect trading conditions for the company.

By order of the board

M Richards Secretary

5th July 2018

Directors' report

The directors present their directors' report and financial statements for the year ended 31 December 2017.

Principal activities

The company is a 75% owned subsidiary of Viohalco SA, a company registered in Belgium. The company is also 25% owned by UACJ Corporation, a company registered in Japan.

The company continues to manufacture aluminium coils for the lithographic printing industry, as well as other aluminium flat rolled products, including foilstock coils for the foil rolling industry.

Going concern

The directors consider that the company has adequate resources to continue in operation for the foreseeable future. In forming this view, the directors have reviewed budgets and other financial information. For this reason they continue to adopt the going concern basis in preparing the financial statements.

Creditor payment policy and practice

It is the company's policy that payments to suppliers are made in accordance with those terms and conditions agreed between the company and its suppliers, provided that all trading terms and conditions have been complied with. At 31 December 2017, the company had an average of 40 days (2016: 27 days) purchases outstanding in trade creditors.

Disabled employees

The company gives full consideration to applications for employment from disabled persons where the requirements of the job can be adequately fulfilled by a handicapped or disabled person.

Where existing employees become disabled, it is the company's policy wherever practicable to provide continuing employment under normal terms and conditions and to provide training and career development and promotion to disabled employees wherever appropriate.

Employee involvement

During the year, the policy of providing employees with information about the company has continued, employees are encouraged to present their suggestions and views on the company's performance. Regular meetings are held between management and employees to allow free flow of information and ideas.

Results

The profit and loss account is set out on page 8 and shows a profit for the financial year of £629,000 (2016: £2,135,000).

Dividends

No dividend was paid during the year (2016: £Nil). The directors do not recommend the payment of a final dividend (2016: £Nil).

Directors

The directors who held office during the year and subsequently were as follows:

(Chairman)

D Peden

A Angelopoulos

J Attas

C Catsaros

S MacVicker

T Nakano

N Tokizane

L Varouchas

Directors' report (continued)

Charitable contributions

The company made charitable donations of £3,778 during the year (2016: £5,131).

Directors' liabilities

The company has granted an indemnity to one or more directors against liability in respect of proceedings brought by third parties, subject to the conditions set out in the Companies Act 2006. Such qualifying third party indemnity provision remains in force as at the date of approving the directors' report.

Disclosure of information to auditor

The directors who held office at the date of approval of this directors' report confirm that, so far as they are each aware, there is no relevant audit information of which the company's auditor is unaware; and each director has taken all the steps that they ought to have taken as a director to make themselves aware of any relevant audit information and to establish that the company's auditor is aware of that information.

Auditor

Pursuant to Section 487 of the Companies Act 2006, the auditor will be deemed to be reappointed and KPMG LLP will therefore continue in office.

By order of the board

M Richards Secretary Stourbridge Road Bridgnorth Shropshire WV15 6AU

Statement of directors' responsibilities in respect of the Strategic report, the Directors' Report and the financial statements

The directors are responsible for preparing the Strategic Report, the Directors' Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law they have elected to prepare the financial statements in accordance with UK accounting standards and applicable law (UK Generally Accepted Accounting Practice), including FRS 101 Reduced Disclosure Framework.

Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable UK accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- assess the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and
- use the going concern basis of accounting unless they either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error, and have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the company and to prevent and detect fraud and other irregularities.

Independent auditor's report to the members of Bridgnorth Aluminium Limited

Opinion

We have audited the financial statements of Bridgnorth Aluminium Limited ("the company") for the year ended 31 December 2017 which comprise the profit and loss account and other comprehensive income, balance sheet and statement of changes in equity and related notes, including the accounting policies in note 1.

In our opinion the financial statements:

- give a true and fair view of the state of the company's affairs as at 31 December of its profit for the year then ended;
- have been properly prepared in accordance with UK accounting standards, including FRS 101 Reduced Disclosure Framework; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities are described below. We have fulfilled our ethical responsibilities under, and are independent of the company in accordance with, UK ethical requirements including the FRC Ethical Standard. We believe that the audit evidence we have obtained is a sufficient and appropriate basis for our opinion.

Going concern

We are required to report to you if we have concluded that the use of the going concern basis of accounting is inappropriate or there is an undisclosed material uncertainty that may cast significant doubt over the use of that basis for a period of at least twelve months from the date of approval of the financial statements. We have nothing to report in these respects.

Strategic report and directors' report

The directors are responsible for the strategic report and the directors' report. Our opinion on the financial statements does not cover those reports and we do not express an audit opinion thereon.

Our responsibility is to read the strategic report and the directors' report and, in doing so, consider whether, based on our financial statements audit work, the information therein is materially misstated or inconsistent with the financial statements or our audit knowledge. Based solely on that work:

- we have not identified material misstatements in the strategic report and the directors' report;
- in our opinion the information given in those reports for the financial year is consistent with the financial statements; and
- in our opinion those reports have been prepared in accordance with the Companies Act 2006.

Independent auditor's report to the members of Bridgmorth Aluminium Limited (continued)

Matters on which we are required to report by exception

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

We have nothing to report in these respects.

Directors' responsibilities

As explained more fully in their statement set out on page 5, the directors are responsible for: the preparation of the financial statements and for being satisfied that they give a true and fair view; such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error; assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and using the going concern basis of accounting unless they either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue our opinion in an auditor's report. Reasonable assurance is a high level of assurance, but does not guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

A fuller description of our responsibilities is provided on the FRC's website at www.frc.org.uk/auditorsresponsibilities.

The purpose of our audit work and to whom we owe our responsibilities

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members, as a body, for our audit work, for this report, or for the opinions we have formed.

Notes

(forming part of the financial statements)

1 Accounting policies

Bridgnorth Aluminium Limited (the "Company") is a company incorporated and domiciled in the UK. The registered number is 4155640 and registered address is Stourbridge Road, Bridgnorth, Shropshire WV15 6AU.

These financial statements were prepared in accordance with Financial Reporting Standard 101 Reduced Disclosure Framework ("FRS 101").

In preparing these financial statements, the Company applies the recognition, measurement and disclosure requirements of International Financial Reporting Standards as adopted by the EU ("Adopted IFRSs"), but makes amendments where necessary in order to comply with Companies Act 2006 and has set out below where advantage of the FRS 101 disclosure exemptions has been taken.

The Company's ultimate parent undertaking, Viohalco SA includes the Company in its consolidated financial statements. The consolidated financial statements of Viohalco SA are prepared in accordance with International Financial Reporting Standards and are available to the public and may be obtained from the offices of Viohalco SA which are located at 30 Avenue Marnix, 1000 Brussels, Belgium.

In these financial statements, the company has applied the exemptions available under FRS 101 in respect of the following disclosures:

- a Cash Flow Statement and related notes;
- Comparative period reconciliations for share capital and tangible fixed assets;
- The effects of new but not yet effective IFRSs;
- Disclosures in respect of the compensation of Key Management Personnel; and

As the consolidated financial statements of Viohalco SA include the equivalent disclosures, the Company has also taken the exemptions under FRS 101 available in respect of the following disclosures:

Certain disclosures required by IFRS 13 Fair Value Measurement and the disclosures required by IFRS 7
Financial Instrument Disclosures.

The Company proposes to continue to adopt the reduced disclosure framework of FRS 101 in its next financial statements.

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the financial statements.

1.1 Measurement convention

The financial statements are prepared on the historical cost basis except that the following assets and liabilities are stated at their fair value: derivative financial instruments, financial instruments classified as fair value through the profit or loss.

1.2 Going concern

The directors consider that the company has adequate resources to continue in operation for the foreseeable future. In forming this view, the directors have reviewed budgets and other financial information. For this reason they continue to adopt the going concern basis in preparing the financial statements.

1 Accounting policies (continued)

1.3 Foreign currency

Transactions in foreign currencies are translated to the Company's functional currencies at the foreign exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are retranslated to the functional currency at the foreign exchange rate ruling at that date. Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction. Non-monetary assets and liabilities denominated in foreign currencies that are stated at fair value are retranslated to the functional currency at foreign exchange rates ruling at the dates the fair value was determined. Foreign exchange differences arising on translation are recognised in the profit and loss account except for differences arising on the retranslation of qualifying cash flow hedges, which are recognised in other comprehensive income.

1.4 Classification of financial instruments issued by the Company

Following the adoption of IAS 32, financial instruments issued by the Company are treated as equity only to the extent that they meet the following two conditions:

- (a) they include no contractual obligations upon the company to deliver cash or other financial assets or to exchange financial assets or financial liabilities with another party under conditions that are potentially unfavourable to the company; and
- (b) where the instrument will or may be settled in the company's own equity instruments, it is either a nonderivative that includes no obligation to deliver a variable number of the company's own equity instruments or is a derivative that will be settled by the company's exchanging a fixed amount of cash or other financial assets for a fixed number of its own equity instruments.

To the extent that this definition is not met, the proceeds of issue are classified as a financial liability. Where the instrument so classified takes the legal form of the company's own shares, the amounts presented in these financial statements for called up share capital and share premium account exclude amounts in relation to those shares.

Where a financial instrument that contains both equity and financial liability components exists these components are separated and accounted for individually under the above policy.

1.5 Non-derivative financial instruments

Non-derivative financial instruments comprise trade and other debtors, cash and cash equivalents, loans and borrowings, and trade and other creditors.

Trade and other debtors

Trade and other debtors are recognised initially at fair value. Subsequent to initial recognition they are measured at amortised cost using the effective interest method, less any impairment losses.

Trade and other creditors

Trade and other creditors are recognised initially at fair value. Subsequent to initial recognition they are measured at amortised cost using the effective interest method.

Cash and cash equivalents

Cash and cash equivalents comprise cash balances and call deposits.

Interest-bearing borrowings

Interest-bearing borrowings are recognised initially at fair value less attributable transaction costs. Subsequent to initial recognition, interest-bearing borrowings are stated at amortised cost using the effective interest method, less any impairment losses.

1 Accounting policies (continued)

1.6 Derivative financial instruments and hedging

Derivative financial instruments

Derivative financial instruments are recognised at fair value. The gain or loss on remeasurement to fair value is recognised immediately in profit or loss. However, where derivatives qualify for hedge accounting, recognition of any resultant gain or loss depends on the nature of the item being hedged (see below).

Cash flow hedges

Where a derivative financial instrument is designated as a hedge of the variability in cash flows of a recognised asset or liability, or a highly probable forecast transaction, the effective part of any gain or loss on the derivative financial instrument is recognised directly in the hedging reserve. Any ineffective portion of the hedge is recognised immediately in the profit and loss account.

When the forecast transaction subsequently results in the recognition of a non-financial asset or non-financial liability, the associated cumulative gain or loss remains in the hedging reserve and is reclassified into profit or loss in the same period or periods during which the asset acquired or liability assumed affects profit or loss, i.e. when a non-financial asset is depreciated.

If a hedge of a forecast transaction subsequently results in the recognition of a financial asset or a financial liability, the associated gains and losses that were recognised directly in equity are reclassified into profit or loss in the same period or periods during which the asset acquired or liability assumed affects profit or loss, i.e. when interest income or expense is recognised.

For cash flow hedges, other than those covered by the preceding two policy statements, the associated cumulative gain or loss is removed from equity and recognised in the profit and loss account in the same period or periods during which the hedged forecast transaction affects profit or loss.

When a hedging instrument expires or is sold, terminated or exercised, or the entity revokes designation of the hedge relationship but the hedged forecast transaction is still expected to occur, the cumulative gain or loss at that point remains in equity and is recognised in accordance with the above policy when the transaction occurs. If the hedged transaction is no longer expected to take place, the cumulative unrealised gain or loss recognised in equity is recognised in the profit and loss account immediately.

Fair value hedges

Where a derivative financial instrument is designated as a hedge of the variability in fair value of a recognised asset or liability or an unrecognised firm commitment, all changes in the fair value of the derivative are recognised immediately in the profit and loss account. The carrying value of the hedged item is adjusted by the change in fair value that is attributable to the risk being hedged (even if it is normally carried at cost or amortised cost) and any gains or losses on remeasurement are recognised immediately in the profit and loss account (even if those gains would normally be recognised directly in reserves).

On the discontinuance of hedge accounting, any adjustment made to the carrying amount of the hedged item as a consequence of the fair value hedge relationship, is recognised in the profit and loss account over the remaining life of the hedged item.

1 Accounting policies (continued)

1.7 Tangible fixed assets

Tangible fixed assets are stated at cost less accumulated depreciation and accumulated impairment losses,

Where parts of an item of tangible fixed assets have different useful lives, they are accounted for as separate items of tangible fixed assets.

Depreciation is charged to the profit and loss account on a straight-line basis over the estimated useful lives of each part of an item of tangible fixed assets. Land is not depreciated. The estimated useful lives are as follows:

buildings

between 5 and 30 years

plant and equipment between 3 and 20 years

motor vehicles

between 2 and 5 years

No depreciation is provided on freehold land and assets in course of construction.

Depreciation methods, useful lives and residual values are reviewed at each balance sheet date.

Research and development

Expenditure on research activities is recognised in the profit and loss account as an expense as incurred.

1.9

Stocks are stated at the lower of cost incurred in bringing each product to its present location and condition and net realisable value as follows:

Raw materials, consumables and goods for resale - purchase cost on an average cost basis

Work in progress and finished goods

- cost of direct materials and labour plus attributable overheads based on a normal level of activity

Net realisable value is based on estimated selling price less any further costs expected to be incurred to completion and disposal.

1.10 Impairment excluding stocks and deferred tax assets

Financial assets (including trade and other debtors)

A financial asset not carried at fair value through profit or loss is assessed at each reporting date to determine whether there is objective evidence that it is impaired. A financial asset is impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the asset, and that the loss event had a negative effect on the estimated future cash flows of that asset that can be estimated reliably.

An impairment loss in respect of a financial asset measured at amortised cost is calculated as the difference between its carrying amount and the present value of the estimated future cash flows discounted at the asset's original effective interest rate. For financial instruments measured at cost less impairment an impairment is calculated as the difference between its carrying amount and the best estimate of the amount that the Company would receive for the asset if it were to be sold at the reporting date. Interest on the impaired asset continues to be recognised through the unwinding of the discount. When a subsequent event causes the amount of impairment loss to decrease, the decrease in impairment loss is reversed through profit or loss.

1 Accounting policies (continued)

1.10 Impairment excluding stocks and deferred tax assets (continued)

Non-financial assets

The carrying amounts of the Company's non-financial assets, other than, stocks and deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit").

An impairment loss is recognised if the carrying amount of an asset or its CGU exceeds its estimated recoverable amount. Impairment losses are recognised in profit or loss.

Impairment losses recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

1.11 Employee benefits

Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which the company pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution pension plans are recognised as an expense in the profit and loss account in the periods during which services are rendered by employees.

1.12 Provisions

A provision is recognised in the balance sheet when the Company has a present legal or constructive obligation as a result of a past event, that can be reliably measured and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects risks specific to the liability.

1.13 Turnover

Revenue recognition

Revenue is recognised to the extent that the company obtains the right to consideration in exchange for its performance. Revenue is measured at the fair value of the consideration received, excluding discounts, rebates, VAT and other sales taxes or duty. The following criteria must also be met before revenue is recognised:

Sale of goods

Revenue from the sale of goods is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer, usually on despatch of the goods.

Interest income

Revenue is recognised as interest accrues using the effective interest method.

1 Accounting policies (continued)

1.14 Expenses

Operating lease payments

Payments (excluding costs for services and insurance) made under operating leases are recognised in the profit and loss account on a straight-line basis over the term of the lease. Lease incentives received are recognised in the profit and loss account as an integral part of the total lease expense.

Interest receivable and Interest payable

Interest payable and similar charges include interest payable, finance charges on shares classified as liabilities and finance leases recognised in profit or loss using the effective interest method, unwinding of the discount on provisions, and net foreign exchange losses that are recognised in the profit and loss account (see foreign currency accounting policy). Other interest receivable and similar income include interest receivable on funds invested and net foreign exchange gains.

Interest income and interest payable is recognised in profit or loss as it accrues, using the effective interest method.

1.15 Taxation

Tax on the profit or loss for the year comprises current and deferred tax. Tax is recognised in the profit and loss account except to the extent that it relates to items recognised directly in equity or other comprehensive income, in which case it is recognised directly in equity or other comprehensive income.

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the balance sheet date, and any adjustment to tax payable in respect of previous years.

Deferred tax is provided on temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The following temporary differences are not provided for: the initial recognition of goodwill; the initial recognition of assets or liabilities that affect neither accounting nor taxable profit other than in a business combination, and differences relating to investments in subsidiaries to the extent that they will probably not reverse in the foreseeable future. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at the balance sheet date.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilised.

1.16 Adopted IFRS not yet applied

The following adopted IFRSs have been issued but have not been applied in these financial statements. Their adoption is not expected to have a material effect on the financial statements unless otherwise indicated:

IFRS 9 Financial Instruments (effective date 1 January 2018)

This new standard addresses the classification, measurement and derecognition of financial assets and liabilities, introducing new hedge accounting rules and a new impairment model for financial assets.

The new impairment model requires the recognition of impairment provisions based on expected credit losses rather than only incurred credit losses as is the case under IAS 39. The Company has assessed the impact of the impairment of financial assets and the effect is not believed to be material.

Viohalco has undertaken thorough discussions with consultants and group auditors on behalf of the group and have decided not to adopt the hedge accounting paragraphs of IFRS 9 and to stay with IAS 39. This was an accounting policy choice which the Company is also adopting.

IFRS 15 Revenue from Contracts with Customers (effective date 1 January 2018)

This new standard is based on the principle that revenue is recognised when control of a good or service transfers to a customer. The Company has considered the impact of this change and found this to be not material on the 2017 accounts.

2 Turnover

Turnover is the total amount charged, exclusive of VAT, in respect of goods and services supplied by the company. All turnover arises in the UK and is attributable to the company's continuing activity, the manufacture of rolled aluminium products.

Factors that may affect future current and total tax charges

A reduction in the UK corporation tax rate from 20% to 19% (effective from 1 April 2017) and to 18% (effective 1 April 2020) were substantively enacted on 26 October 2015, and an additional reduction to 17% (effective 1 April 2020) was substantively enacted on 6 September 2016. This will reduce the company's future current tax charge accordingly. The deferred tax liability at 31 December 2017 has been calculated based on these rates.

9 Tangible fixed assets

	Land and buildings	Plant and machinery	Motor vehicles	Assets in course of construction	Total
	£000	£000	£000	£000	£000
Cost At beginning of year Additions Transfer of assets	13,804 1,590	136,610 - 4,405	2,430 121	3,057 3,568 (6,116)	155,901 3,568
At end of year	15,394	141,015	2,551	509	159,469
Depreciation At beginning of year Charge for year	3,932 610	71,066 6636	1,922	-	76,920 7,446
At end of year	4,542	77,702	2,122	-	84,366
Net book value At 31 December 2017	10,852	63,313	429	509	75,103
At 31 December 2016	9,872	65,544	508	3,057	78,981
					

Included within land and buildings is £2,013,746 (2016: £2,013,746) of freehold land which is not depreciated. The remaining net book value is in respect of buildings constructed on the company's freehold premises.

10 Stocks

	2017	2016
	£000£	£000
Raw materials	21,160	16,588
Work in progress	11,877	7,543
Finished goods	18,163	9,133
	MANAGAR AND PROPERTY.	-
	51,200	33,264

The difference between purchase price or production cost of stocks and their replacement cost is not material. The movement of raw materials, consumables, work in progress and finished goods is £138,253,231 (2016: £120,153,639) and is included within cost of sales. The write-down of spare parts and consumables is £24,914 (2016: (£675)).
